The library is a well stocked resource centre available to students, staff and parents. Classes are timetabled for a weekly session in the Library where new releases are promoted, books are read and research skills are taught. In our Library we have 4 computer catalogues that utilise the “Bookmark” library system. The collection can be accessed by Author, Title, Subject or Keyword using the catalogue.

The Library is regularly adding new publications and receives Australian Author’s works by subscription.

We have a large collection of Talking Books, great for some different listening in the car on that trip down to Melbourne or other destinations.
